ACCESSORIES

Round and Square pole tenon adaptors mount to poles with 2-3/8" OD x 4 1/2" pole top tenon.

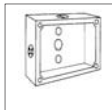

RPA-SJX Round Pole Adapter
 For mounting to 4" OD round poles. Required for each luminaire mounted with RPTA accessory.

- RPTA-190-SJX Round Pole Tenon Adapter, 1@90
- RPTA-290-SJX Round Pole Tenon Adapter, 2@90
- RPTA-2120-SJX Round Pole Tenon Adapter, 2@120
- RPTA-390-SJX Round Pole Tenon Adapter, 3@90
- RPTA-3120-SJX Round Pole Tenon Adapter, 3@120
- RPTA-490-SJX Round Pole Tenon Adapter, 4@90

- SPTA-190-SJX Square Pole Tenon Adapter, 1@90
- SPTA-290-SJX Square Pole Tenon Adapter, 2@90
- SPTA-390-SJX Square Pole Tenon Adapter, 3@90
- SPTA-490-SJX Square Pole Tenon Adapter, 4@90

SW-SJX Wall Mount Bracket

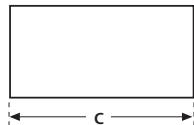

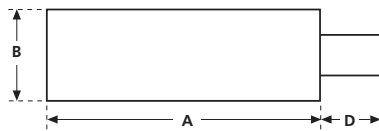

SPECIFICATIONS

- HOUSING** Each SJX housing shall be constructed from a one-piece extruded aluminum side and formed aluminum top plate. The fixture shall be UL listed "suitable for wet locations." Constructed to IP54.
- LENS FRAME** The extruded, natural anodized aluminum lens frame swings down for easy lamp access. Opposing spring-loaded latches allow tool-less lamp access.
- LENS AND GASKETING** The flat, thermal and shock resistant glass lens shall be mechanically secured to the lens frame. A one-piece extruded silicone gasket ensures a sealed enclosure.
- MOUNTING** Standard surface arm (field installed) shall be heavy gauge extruded aluminum, 7" long (11" long when fixtures are mounted at 90°). Threaded tension rods shall be used to bolt to 4" and larger straight square poles. Adapter required with round poles.
- REFLECTOR** SJX luminaires are horizontally lamped and available with the following distributions: 2 (Type II) - asymmetric; 3 (Type III) - asymmetric; FT - Forward throw (Type IV) with internal house side shield; 5 (Type V) - square. A11 Reflectors are field-rotatable and exchangeable.
- BALLAST** CWA and HX-HPF ballasts (+10% to 10% lamp power regulation) shall be rated for operation down to -20° F (MH), -30° F (PSMH), and -40° F (HPS). HX-HPF ballasts required with 150 watt units.
- FINISH** Polyester powder coat, electrostatically applied, which is preceded by a five step pre-treatment process including an iron phosphate priming stage for superior coating adhesion. This process meets or exceeds all ASTM testing requirements, including those for 1,000 - hour salt spray endurance testing.
- WARRANTY** Mechanical, finish and electrical shall be covered by a limited 1-year warranty. See terms and conditions for details.

Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled 'Contain Mercury' and/or with the symbol 'Hg'. Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycle and disposal can be found at www.lamprecycle.org.

DRILL TEMPLATE

DT4-SJX
not to scale

Drill Template **DT4-SJX**
Standard Arm Mount:

S or **S11** to 4" - 6" Square Pole
Requires RPA-SJX to mount to 4" - 5" Round Pole.
Also used with Wall Mount Bracket and Tenon Mounting Adapters.
